

Recommendations for the design of the article

The article should be logically complete, containing new ideas and/or technical results obtained during laboratory or industrial testing. The authors are responsible for the content of the reports. The article should be between 3 and 8 pages long. When designing an article, it is necessary to strictly adhere to and work in accordance with the established [IEEE template](#). Articles that are not designed according to the rules of the IEEE template may be rejected for publication in the IEEEXplore database. The text of the article is presented in English in Word format. The submitted articles are checked for originality on the IEEE CrossCheck portal. The Editorial Board reserves the right to edit or reject materials that are designed in violation of IEEE requirements (IEEE CrossCheck, IEEEXplore), and also do not correspond to the conference topic.
